CONSERVATION COMMISSION

(1915-1927)

# STATE ISLANDS FOR LEASE

IN

# NORTH WISCONSIN LAKES

(Islands now leased are so indicated)

Issued by the

State Conservation Commission

Madison, Wis.

March, 1920

HI 184  
W6 A4  
1920

n. of D.  
SEP 18 1920

# GENERAL INFORMATION

AND

## INSTRUCTIONS

The Conservation Commission has now some six hundred (600) islands surveyed and available for permanent cottage or camping sites. These islands are a part of the state forest lands and are all located in the counties north of Townships 33. They were deeded to the state of Wisconsin by an Act of Congress. The islands are subject to the provision that they shall never be sold. Leases are drawn for a period of five (5) years, with first privilege of renewals in five year periods.

Islands may be leased either near to or distant from a railroad, the applicant should state which he prefers. The provisions of the lease are very simple and not at all restrictive, the main points being that no green timber shall be cut for building or any other purpose without the consent of this commission, that every precaution shall be taken to prevent forest fires, that intoxicating liquors shall not be sold, bartered or given away, that the lease is not subject to transfer without the approval of this commission, and certain rights are reserved to the public for passage across the leased premises.

The following plan for leasing an island is outlined:

1. Decide upon the county or locality.
2. Decide upon the lake or lakes.
3. Then go over the following list of islands and write us as to which you are most interested in.
4. We will then give you all definite information at our command.
5. After you receive what information we have—you or some friend should go and see the island. To lease an island without having seen it, without knowing the surrounding conditions, the route to get in and out, etc., etc., usually results in disappointment. See the island yourself and decide for yourself. The island we recommend, may not suit you at all—you may find another that you much prefer.

The following is a complete list of the islands in the northern counties. The rental prices given are tentative and subject to change without notice.

### **Lake Shore Lots**

The state has also available for leasing many desirable sites on the shores of northern Wisconsin lakes. You should follow the same instructions given for the leasing of an island. After you have made a choice of a lake, communicate with us.

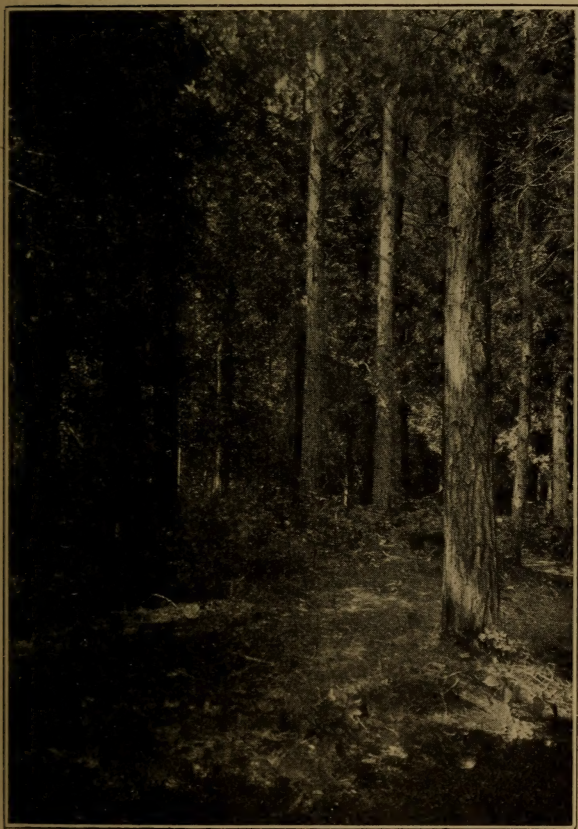

The state forest rangers, in connection with their regular field work will, as far as possible, protect camps and cottages on state lands and islands from being molested.

Applications are often received asking for information covering northern lands generally. This is a big task as the state owns over a quarter million of acres of lands and approximately

six hundred islands. We must therefore request that inquiries be restricted to as small an area as possible.

STATE CONSERVATION COMMISSION.  
Madison, Wisconsin.
